🏠 Benin, NG

Career Objective

Results-driven Full Stack Developer skilled in modern frameworks (React, Node.js) and building scalable solutions. Proven ability to deliver high-performing applications. Seeking to leverage expertise in cross-functional teams to solve complex technical challenges and deliver robust, user-centric web solutions.

Work Experience

Full Stack Developer @ Vandeni Technologies

Aug 2024 – Present // Benin, NG (Remote)

- > Architected Vandeni's core platforms
- > Built scalable full-stack apps (REST APIs, frontend/backend integration)
- > Optimized databases/API/server processes for performance gains

Full Stack Developer @ Coactng

Feb 2024 – Aug 2024 // Lagos, NG (Remote)

- > Full-stack development for Coactng app: architected codebase, built REST APIs (frontend/backend sync)
- > Optimized DB queries/API responses/server processes for speed
- > Engineered high-performance web apps

Web Developer @ The Odin Project

Dec 2021 – Feb 2024 // Remote

- > Engineered cross-platform UIs (HTML5/CSS3/JS)
- > Coded with OOP/Git (closures, prototypes)
- > Built apps/games via optimized algorithms

Data Officer @ Data to MEGA (Redwire Group)

Feb 2021 – Dec 2021 // Benin, NG

Experience

- > Cleaned/validated datasets; generated reports (Excel) and updated Databases
- > Deputized supervisor: streamlined data workflows and team oversight
- > Fixed input errors to prevent duplication/data loss

Achievements

- > +30% productivity via optimized validation and early discrepancy

Relevant Skills

Programming Languages

HTML5, CSS3 / Sass, JavaScript, Typescript, Python

Libraries and Framework

React, React Native, Redux, Zustand, Next.js, Node.js, Express, Mongoose, MongoDB, Tailwind

Tools and Platforms

Git and GitHub, Npm, Webpack, Figma, WordPress, Expo

Other Skills

Strategic Planning, Problem Solving, Research, Data Analysis, Microsoft Office, Google Suits, Creative Design, UI/UX Design, Attention to details, Adaptability and Leadership skills.

Projects

doList

Task manager with category/tag organization, search and CRUD ops (JS/HTML/CSS).
